"You call me to walk with you, and with my words I say  
'Yes' but you seek more than words and my heart longs  
to give you more than empty promises:..." \*\*

Dear Sharing Friend,

For the first mile of my Walk this year, I was very happy to be joined by Mark Hansberry. Mark, along with his wife, Melinda and son Thomas traveled down from Hanover NH. Mark's mother, Nancy, was a co-captain at the Hingham Congregational Church rest stop, and his sister Lynn Mayo, and her son Ethan rounded out the family constellation.

It warms my heart whenever I consider the many families who, like the Hansberrys, rendezvous in Hingham to walk in concert. Another example is the Waterman clan, originally from Hanover, (MA that is), presently living in Hyde Park, Melrose, Milton and North Andover, that is always represented.

Also originally from Hanover, the Vaughn family; father, Dave still lives there, daughter Patti in Weymouth, and son, David M. who flew in from San Francisco for the weekend!!! Perhaps he wanted to be able to share and celebrate Patti's 500th mile.

For me, it just makes sense to walk on Good Friday. Not just for walking's sake, but to connect my faith to suffering people. Not only to connect it, but, by raising funds that will hopefully alleviate some of it.

When you read some or all of the statistics that follow, just consider how much effort over so many years is represented there.

If you could look through Sharing's card record file boxes, you would be amazed to discover how many have faithfully contributed over many years. In fact, there are two families, (you know who you are), who have contributed every single month beginning in the mid-seventies !!!!

To each of you who have contributed your time, talent and/or treasure, please, from the fullness of my heart, receive my deepest gratitude.

May your blessings be plentiful, and may you be a blessing to others.

Shalom,

A handwritten signature in cursive script that reads "Kay Doherty".
